If your pet is coming in for a procedure requiring anesthesia, please follow these guidelines:

The night before your pet is scheduled for the procedure do not feed your pet after 10:00 P.M. (water is OK). Drop off your pet the morning of the procedure between 7:30 A.M. and 9:00 A.M. at the employee door. You may call to check on your pet around 2:00 P.M. that afternoon. Unless otherwise advised, you should be able to pickup your pet after 4:00 P.M. that evening.

The anesthesia may cause nausea. Do not offer food or water until 8:00 P.M. and start with a small amount of each. If the pet keeps it down, you may offer more.

If you have any questions or concerns, please call.
